CWA Radio Ads: AT\$T's Tax Breaks and Broken Promises!

CWA is running these ads to raise awareness of AT\$T's broken promise to <u>use a portion of its</u> \$20 billion tax break to "create 7,000 good jobs for the middle class" and to ask members of Congress who voted for AT\$T's \$20 billion tax break to hold the company accountable.

If tax reform passes, AT\$T CEO Randall Stephenson said; "the company will spend "at least" \$1 billion in capital expenditure and be able to create an estimated 7,000 jobs."
